Waterflame Scanlations

At a certain
place deep in
the mountains

Struggled
against
such collar

A large boulder
and a small
bellflower

The boulder
protected the
bellflower from
strong rains

From cold
winds

And from
overly strong
sunlight

The boulder
loved the
bellflower

The two
became
separated

But one
day

At this time

A young girl appears

I want to protect the bellflower

Even though I am making like
bellflower when I
become older

As I grow older
bellflower must
be flowering

And now they
must be withering
in the strong sunlight

The teacher
was so worried
they cried out

An extremely
mysterious thing
happened.

And

And so
if to
protect
the
tomb.

The entire surface
was covered in
bellflowers.
